

On Thursday, September 16 at 7:30 p.m. in the International Center, the Revolutionary Student Brigade will be presenting an ORIENTATION PROGRAM on....

WHAT CAN WE DO?

It's election year, '76 and everyone agrees it's time for a change. As usual, the politicians are offering all sorts of proposed solutions to the problems we face. But crime, unemployment, inflation, and city crisis have been around for decades, and are steadily growing worse. What's more---their proposals, if implemented, would actually make conditions worse for people. Take, for example, the Humphrey-Hawkins(or so-called "Full Employment") Bill(which forms the heart of the Democratic platform). While supposedly providing jobs for every adult American, it would actually, if passed, result in lower wages and more cuts in social services(for more information on why, come to our program).

Despite the politicians' display of sympathy around election time, the system they work for is based on keeping people down. Take South Africa, for example, while Kissinger hypocritically sheds crocodile tears for the plight of Black Africans under the apartheid system, corporate interests dictate that the U.S. will continue to prop up those regimes. And, on a world scale, these same interests(which have led to military and CIA intervention in dozens of countries) are now forcing a showdown between the U.S. and U.S.S.R. which could lead to war.

WHAT IS THE R.S.B?

The Revolutionary Student Brigade uses Marxism-Leninism and the thought of Mao Tse-Tung to understand and change the problems we face at home and abroad. Based on over 60 campuses, the Brigade has organized thousands of students to oppose cutbacks in education and U.S. aggression, and played a major role in building for the "Rich- Off Our Backs" July 4th demonstration that took place in Philadelphia. Here in Ann Arbor, we have had a chapter of the Brigade for 3 years, and have been active in work to kick the CIA off campus, to rollback tuition hikes, and to support workers' struggles. We think that there's a lot that can be done, and we encourage all students, old and new, to check us out, to work with us, and to bring us your suggestions!
